

ARTICLES DISPLAYED IN TOP PICTURE WERE CHOSEN by the Plant Safety Award Selection Committee, bottom, for Y-12ers to pick for safety awards. Employees were urged to designate their pick by number as well as name on the selection cards that will be distributed throughout the plant.

Safety Award Selections Indicate Y-12ers Will Do Lots Of Picknicking In Future

Judging by the choices of the Y-12 Safety Award Selection Committee for individual safety awards to eligible employees for participating in the sixth 1,500,000-hour accident free period in the plant area, there is going to be a lot of picknicking and other outdoor activities staged in the future. The committee, representing all divisions and every section of the plant last week choose seven articles from which more than 4,000 Carbide employees of Y-12 and the Oak Ridge National Laboratory in this plant area will choose one.

Picnic Basket Most Popular

Leading the committee's choice was a handsome picnic basket, equipped with four forks and four spoons. The second choice was a vacuum jug of one gallon capacity, also a suitable picnic item. The third selection was a tackle box that will appeal to all fishermen. The fourth choice was an electric lantern (minus batteries). The three pair of men's Dynel hose in assorted colors followed in the opinion of the committee, then came an attractive woman's wallet and a Zippo cigarette lighter.

An additional article was added by the Safety Department in the form of a box of two decks of playing cards, each card of the deck bearing a safety message.

Selections Already Started

The Safety Department already has started distribution of selection cards throughout the plant to the 4,408 Carbide employees eligible to receive awards. The articles themselves will be displayed throughout each division so that every Y-12er will have an opportunity to inspect them.

Every individual Y-12er eligible for an award is urged to designate their choice of prize on the card as soon as possible. Prompt action will enable the Safety Department to place orders for the articles that much earlier and have them on hand for presentation.

Lantern Batteries Extra

Employees are reminded that if ordering the electric lantern that it comes without a battery. However, a battery for the light may be purchased at the office of the Y-12 Cashier, Bldg. 9704-2, for 45

Chest Drive Opens In Y-12 On October 20

Red Feather Agencies Are Seeking \$55,889 To Operate For Year

The Oak Ridge Community Chest 1952 fund campaign will be launched on Monday, October 20, when the organization will make its annual appeal for support of its Red Feather agencies to aid many worthy causes in the city and Anderson County. The goal set this year by the Chest is \$55,889, considerably less than the \$62,000 asked last year.

Y-12 Sets Drive Record

In past years Y-12ers have generously and promptly answered the appeal of the Community Chest for support of its work and this year is expected to be no exception. For four consecutive years this plant has led all groups in its classification in reporting its quota met and passed and Chest officials are looking for another outstanding record this year from Y-12.

The Red Feather agencies to be helped this year by contributions to the Community Chest include the Boy Scouts and Girl Scouts of Oak Ridge, the school lunch and school bus fare program for indigent children, Oak Ridge Nursery, the Anderson County Crippled Children's Committee, the Anderson County Council on Cerebral Palsy, the East Tennessee Heart Association; the off-area hospitalization plan and the Scarborough Day Care Program. The Chest also assists in the work of four national agencies—the American Hearing Association, Mental Health, Dental Health and Travelers Aid Association.

Former Y-12er Director

Phil Rueff, former Y-12er and now administrative assistant to the director of the Oak Ridge National Laboratory, is director of the Oak Ridge Community Chest campaign this year.

Y-12er Seeking Views On Forming Masonic Lodge

Members of the Masonic order in Y-12 and Oak Ridge interested in organizing a new lodge in Oak Ridge have been asked to communicate with J. W. Bright, of the Y-12 Administrative Normal Dept., in Bldg. 9212, telephone 7515. He has reported several Masons in the city that have desired to organize a lodge. Bright's home address is 631 Alpaca Way, Oak Ridge, telephone 5-9560.

Smart, Hey? Better Check Registration

There are a lot of smart folks in Y-12—but unless some of them get a move on themselves they may be in the fix of the character shown just below on November 4, when a record number of Americans is expected to go to the polls to elect public officials from President of the United States on down.

Smart fellow he in most respects But he can't write that voter's X—

HE'S NOT REGISTERED

Every Y-12er who has the love of his country and its interests at heart should be certain to be qualified to vote in that important November 4 election. If there is any uncertainty at all—an immediate check on his or her status as a voter should be made at the office of the county register in the county where the Y-12er lives. In Anderson County the office of County Register Josh Boyd is in the court house at Clinton. In Knoxville, the office also is in the court house.

The Clinton office is open from 9 a. m. to 4 p. m., Monday through Friday, and from 9 a. m. to noon on Saturday. The Knoxville office is open from 8 a. m. to 4 p. m., Monday through Friday and 8 a. m. to noon on Saturday.

Persons must re-register if they have moved from one precinct or district to another since last voting, if (in the case of recently married women) their names have been changed since last voting, or if they have not voted in a statewide election since 1946.

The final date for qualifying to vote in the November 4 election if a person is not now properly registered is Wednesday, October 15—just three weeks off.

So don't put off that check—if you are not absolutely certain of your eligibility to vote—it would be wise to make a personal trip to your county court house to see just how you stand.

RUSSIAN BOMB DOUBTED

An Associated Press report declares that Carlton S. Proctor, president of the American Society of Civil Engineers, said at the opening session of the Centennial of Engineering at Chicago that "I don't believe Russia has one single atom bomb" and "I think every one of the atomic explosions in Russia were premature explosions in an effort to produce a bomb."

Fire Hazards Elimination Aim Of Y-12 Program

Fire Prevention Week Observance Set Here From October 5 To 11

Y-12ers will join Oak Ridge and the rest of the nation in observance of Fire Prevention Week October 5-11. A program to stress elimination of all potential fire hazards in the plant and how to combat any fires that might occur will be carried out throughout the area prior to and during Fire Prevention Week.

Continuous Program Operating

Fire Prevention Week is observed nationally, in Hawaii, Alaska and Canada during the week of October that marks the anniversary of the tragic and costly Chicago fire in 1871 that destroyed 17,000 buildings and cost \$168,000,000 in damages. The National Fire Protection Association and other safety organizations carry on a continuous program aimed at reducing the causes and thereby reducing the cost in lives and property resulting from fires.

This year Y-12 is distributing by mail to the homes of all employees a booklet entitled "Fire." The booklet has been prepared by The Reader's Digest in connection with the National Fire Protection Association. The publication is not merely a compilation of statistics but contains effective articles and other information that has as their objective the fighting of the ravages of fire in industrial plants, homes and public buildings. It is an interesting booklet that should be read from cover to cover by all Y-12ers and members of their families.

The Y-12 Fire Department and Training Department have prepared an agenda for use and discussion in all departmental safety meetings before and during Fire Prevention Week. It outlines activities for the week in various departments throughout the plant. Each department will be asked to make at least one fire inspection during Fire Prevention Week and inspection blanks will be furnished as a guide to these inspections.

The dates of observance of Fire Prevention Week will be brought home to Y-12ers through slogans and messages displayed throughout the plant. All plant mail will carry a fire prevention message stamped on it during the week.

Other details of observance of Fire Prevention Week will be carried out in meetings of members of the Y-12 Fire Department and the fire, safety and security coordinators of each division in the plant.

Y-12ers With Carbide Group Life Insurance Coverage Urged To Check Name Of Beneficiary To Avoid Any Confusion Later

Who is the beneficiary named in your Carbide Group Life Insurance Certificate? If you are not certain—Mr. and Mrs. and Miss Y-12er—you had better check up immediately and be sure that the correct name appears on the certificate.

Cases have arisen recently in which beneficiaries have died and the insured employees have failed to designate a surviving beneficiary. A specific case was cited

where a Carbide employee originally had named a parent as beneficiary, then married later and became the father of a child. The employee died without changing the beneficiary of the life insurance from the parent to his wife and the wife and child were deprived of the benefits when the insurance was paid out—the original beneficiary refusing to acknowledge any responsibility toward them.

The Y-12 Insurance Office,

North Portal, telephone 7382, urges every Y-12er in doubt as to the beneficiary of their Carbide Group life insurance to check the certificate at once. If a change is desired, the certificate should be brought to the Insurance Office where the necessary forms will be prepared to make any desired change. If any insured Y-12 employee does not have a certificate, a duplicate may be obtained bearing the name of the desired beneficiary.

Goodyear To Operate AEC Plant In Ohio

The Goodyear Tire and Rubber Co., of Akron, Ohio, has been selected by the Atomic Energy Commission as operating contractor for its Uranium 235 production plant to be built in Pike County between Portsmouth and Chillicothe. The plant will cost \$1,219,000,000 and when completed will permanently employ about 4,000 persons.

The Goodyear concern will work closely with Union Carbide and Carbon Corporation, of which Carbide and Carbon Chemicals Company is a division, in assuming the operation of the new plant. Carbide will assist in training of key personnel employed by Goodyear, using the experience gained in operation of gaseous diffusion plants at Oak Ridge and Paducah and training workers for jobs at those units of the Company.

Goodyear will put individual units of the gaseous diffusion plant in Ohio in operation as they are completed. All operating employees will undergo an extensive training program, so that hiring of permanent personnel by Goodyear probably will begin early next year.

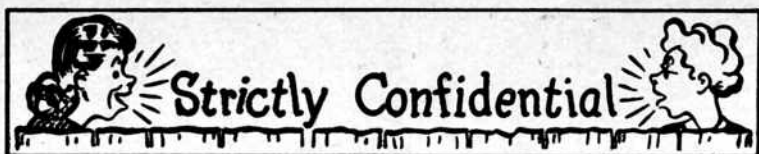

The following Y-12 employees were patients in the Oak Ridge Hospital last week: James R. Helton, Electrical Maintenance; Leila C. Leslie, Laundry; Edward Hensley and John B. Gray, Field Maintenance; Nicholas J. Tronolone, Jr., Plant Engineering; Thomas J. Hubbard and James E. Miner, Chemical; Archie D. Douglass, Maintenance Shops; Mary E. Lee, Martha Milligan and George S. Chilton, ANP; Mabel M. McMahan, Analytical Laboratory; John W. Anthony, Administrative Normal; and Pauline C. Applin, Janitors.

The average woman's vocabulary is limited to 1,800 words, but the turnover is tremendous.

MISS LOUISE ARGO, OF Y-12, CENTER, WAVING ROLLING pin, was honoree at a miscellaneous bridal shower given last week at the home of Mrs. LaVina Musser. Miss Argo was married Saturday at the Chapel-On-The-Hill to Bryce Kennedy, also a Y-12er. Guests at the shower, shown above, are, seated from left, Edith Duckworth, Helen Harpe, Phyllis Groover, Florence Bowers, Miss Argo, Bettie Davis, Ruth Ottinger, Edna Fine, co-hostess; Dorothy Holloway. In the rear are Mrs. Musser, Eunice Arnold, co-hostess; Mildred Byrd, Nora Hurst, Jenny Elrod, Mary Argo, Zora Shelton and Christine Oliphant. Bobbie Robinson, not pictured, also was present.

The Guard Department welcomes Capt. J. H. Conner back after a long illness. . . . Get-well wishes are extended to C. H. Harpe, who is ill with typhoid fever and a patient in the Oak Ridge Hospital. . . . L. E. Bellamy is visiting relatives and friends in Akron and Cleveland, Ohio, and in Chicago, Ill., while on vacation. . . . Sue Shults and her husband spent the week end with relatives in Atlanta, Ga.

T. A. Williams, of Office Services, has returned from a two-week vacation—the first of which he spent at home in Kingsport, Tenn., and the latter in Jackson, Miss., with friends. . . . Helen Cunningham is vacationing at home in Alcoa, this week.

The Health Physics Department welcomes J. M. McMillan and R. M. Collier to the roster. . . . Get-well wishes go to Virginia Means and to Pauline Applin, who are on the sick list. . . . L. C. Emerson and his wife are spending a two-week vacation with O. M. Weisdahl, a former Y-12er, in Denver, Colo.

W. R. Duff, of Research Services, is spending his two-week vacation at home in Byington. . . . A. F. Neubert is taking it easy at home in Oak Ridge while vacationing two weeks. . . . H. T. Potter, C. C. Bowman and R. F. McNabb are on this week's vacation list.

J. J. Goodman, Cafeteria, spent last week's vacation fishing in the local lakes and streams and at home in Oak Ridge. . . . Johnson Robinson is on a two-week vacation in Alabama. . . . C. C. Cherry is vacationing for two weeks. . . . The department extends sympathy to Nancy Gassaway, whose mother-in-law died September 15 at her home in Lenoir City.

Clarice Janeway, of the Laundry, is enjoying a week of vacation at home in Lenoir City.

Clem Jones, of Receiving and Shipping, is spending two weeks of vacation at home in Lansing, Tenn. . . . The department welcomes A. R. Melton to the roster.

J. M. Jones, of Stores, and his wife with a party of friends are vacationing at Kurey Beach, N. C., this week—they expect to do some deep sea fishing while there. . . . W. L. McNabb is staying pretty close to home in Knoxville, while on a week's vacation. B. N. Strunk and his wife, Ann, of Health Physics, had as their guest last week Mrs. Julia Boyd of Birmingham, Ala.—they drove her back to Birmingham over the week end.

Engineering extends wishes for a speedy recovery to Nickie Tronolone, who is suffering from a sprained ankle. . . . Nell Cromer was awarded first prize at the T. V. A. and I. fair in Knoxville for her entry of an appliqued quilt, done in the snowflake pattern—she had previously dis-

played the quilt here at the hobby show.

Property Sales welcomes Mary Roberts to the roster. . . . G. L. Edwards spent last week squirrel hunting in Anderson County. . . . H. L. Pace spent his week of vacation around home in Clinton. . . . Get-well wishes go to Betty Sims, who is still ill.

Betty Riney, of Uranium Control and Computing, spent the week end with relatives in Owensboro, Ky. . . . Nancy Garrison had as recent guests her mother and a sister from Anderson, N. C. . . . Flora Coefield spent the week end in Sweetwater with Georgia Mae Moore, a former Y-12ers. . . . Frances Darnell and her husband drove to Winston Salem, N. C., to visit Frances' grandmother, who is ill. . . . Jeanette Braden spent last week's vacation at her home in Lake City, to make arrangements for her wedding which took place Saturday at the First Baptist Church there. . . . The department was well represented in the Jaycee Follies last Friday and Saturday by Barbara Bond. . . . The department extends get-well wishes to W. S. Herron, of the Superintendents Department, who is on the ailing list.

The General Maintenance Offices wish the best of everything for Reva Dagley, who terminated last Friday. . . . Research Engineering welcomes H. C. Hankins and C. L. Scaff to the roster. . . . Lou Kelly Grice, of the Assay Laboratory, and her husband, Roy, have returned from a two-week vacation—visiting in Chattanooga, Tenn., for a few days then spending the rest of their time at Daytona Beach, Fla. . . . Florene Robbins spent the week end in the Smokies.

The best of luck is wished for Barbara Jean Hopkins, of Security, who has terminated to return to school at the University of Tennessee.

Desma Hutcheson, of Wage Standards, got her vacation plans all fouled up so she had to postpone the time to a later date. Better luck next time, Desma!

Sue Gragg, of Property, had as guest last week Robert Flannery, from Seattle, Wash. . . . Bob Moore, of Materials Chemistry, and his family are vacationing two weeks with relatives in South Bend, Ind. . . . Eugene Ketchens and his wife are visiting her folks in Huntington, W. Va., while on vacation this week. . . . Hearty congratulations are extended to Leo Topol at the recent birth of a baby daughter born at the Oak Ridge Hospital weighing six pounds two and one half ounces. . . . Frank Knox and his wife had as guest the past month her mother, Mrs. T. J. Duncan, of Oklahoma City, Okla. Mrs. Knox accompanied her mother back by train as far as Memphis, where they spent the week end.

ANP's Experimental Engineering section extends congratulations to Bill Tunnell, who became the proud papa on September 15, of a baby boy born at the Baptist Hospital in Knoxville.

The Isotope Research and Production Division extends hearty congratulations to Henry Morgan and Mrs. Morgan at the birth of their baby daughter, Mary Virginia, September 11, at the Oak Ridge Hospital. . . . Dr. A. C. Topp, a summer participant in the division, is leaving this Friday to return to his duties at Georgia Tech. . . . Fred Thomas is on this week's vacation list.

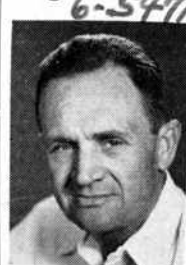

Congratulations are extended to Max M. Carty, of Electrical Maintenance, who is the proud papa of a baby girl born September 1, at the Baptist Hospital in Knoxville, weighing seven pounds and seven ounces. The Cartys named the baby Evelyn Jane.

Best wishes from the Analytical

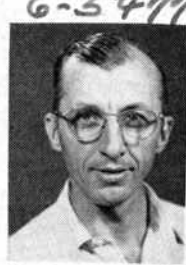

Four Chemical Workers Cited For Promotions

In this ninth series of sketches and pictures of Y-12ers receiving promotions since July 1, 1951, The Bulletin is sticking for the week to the Chemical Division, where four more employees are cited for their advancement. Here they are:

Reece Everett Pope—Pope received his promotion from operator assistant to assistant process foreman in the Administrative Normal Department on September 1, 1951. He came to work in Y-12 on December 17, 1950. Pope was married in 1922 and he and his wife, Mrs. Bessie Lee Pope have four children, Faye, Buddy, Billie and Jack. Buddy is a former Oak Ridge High School football star now in the Army. The Pops live at 641 West Outer Drive in Oak Ridge.

R. E. Pope

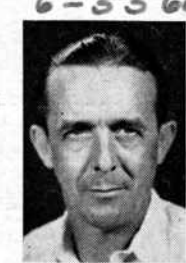

H. L. Painter

Harry Lee Painter—The promotion from operator assistant to assistant process foreman in the Administrative Product Department was received by Painter on September 1, 1951, the same date as Pope was advanced. Painter was first employed in Y-12 back on July 7, 1943, and was reemployed on April 16, 1950. Painter and his wife, Mrs. Esther Painter, were married on April 11, 1943, and they have four children, David, Martha, Anne and Jeanne. They live at 117 Marietta Circle in Oak Ridge.

L. A. Taylor

E. F. Sise

LeRoy A. Taylor—Taylor came to work in the Administrative Normal Department on April 9, 1951, and on September 1 of the same year he was promoted from tool and cutter grinder to assistant foreman. Taylor is married and he and his wife, Mrs. Yvonne Taylor, have one son, Thomas Taylor. They live on Rural Route No. 1, Knoxville, from where the Y-12er commutes daily.

Edward F. Sise—Also in Administrative Normal Department, Sise has been employed in Y-12 since May 23, 1948. He received his promotion from machinist to assistant foreman on April 1, 1952. Sise and his wife, Mrs. Dorcel Sise, were married in 1934 and have four children, William, Gloria, Mary and R. C. They live at 695 West Outer Drive in Oak Ridge.

Laboratory go to **Steve Cowan**, who left Y-12 to return to the University of Tennessee. . . . Also to **Roy Caldwell**, who is attending Vanderbilt University in Nashville. . . . **Fred Williams** and his wife have returned from a recent week of vacation in Florida. . . . The department extends sympathy to **Francois Thornton** at the death of her grandfather. . . . The Lab is serving notice on someone—like **Al Stephens**—to remove that sprinkler and hose on the south side of Bldg. 9995. . . . Folks on last week's vacation list were **Ed**

Mrs. LaVaughn Davis

DAVIS - MARTIN

Miss Cleo Martin, of the Y-12 Assay Laboratory; and LeVaughn Davis, of the Analytical Laboratory, were married at 10 o'clock Saturday morning, September 20, at the Chapel-On-The-Hill. The wedding was solemnized by the Rev. Frank Porter, pastor of the Oak Ridge First Methodist Church.

The bride is the daughter of Mrs. Robert K. Martin and the late Mr. Martin, of Kenvir, Ky. The groom is the son of Mrs. L. L. Davis and the late Mr. Davis of Oak Ridge.

F. C. Lowry, Personnel, became father of a boy September 5.

Raymond F. Allen, Maintenance Shops, became father of a girl September 5.

Robert C. Sutphin, Maintenance Shops, became father of a boy September 6.

James E. Martin, Plant Engineering, became father of a boy September 6.

Alva L. Fischer, General Administrative, became father of a boy September 7.

Millard C. Neeley, Maintenance Shops, became father of a girl September 11.

Leo E. Tool, Materials Chemistry, became father of a girl September 16.

Douglas Griffin, Janitors, became father of a boy September 18.

Creech, Richard Fenske and Louise Perkins.

Congratulations to **J. C. Wilson**, of Chemical, and his wife, who are the proud parents of a baby boy born on September 16 — they named the little fellow James Lee. . . . **Jean R. Williams** is visiting in Memphis, Tenn., while on vacation this week. . . . **Bobbie McNew** has returned from a week of vacation. . . . **Herman Holsopple** is at his home recuperating from a recent appendectomy. . . . Get-well wishes are extended to **R. A. Bates, Jr.**, who is on the sick list. . . . A speedy recovering is wished for **T. J. Hubbard**, who sustained slight injuries following a motorcycle accident on the Oak Ridge Turnpike last week.

Katie Gulley, of the General Administrative Department, spent last week's vacation visiting in Paducah, Ky.

Warren A. Gustafson, of General Electric, and his wife, **Lucille**, of Research Engineering, are enjoying a week of vacation at Sarasota, Fla.

SISE HURLS NO-HITTER AS 49ERS WIN TOURNEY

Y-12 SPORTS NEWS

6-5569

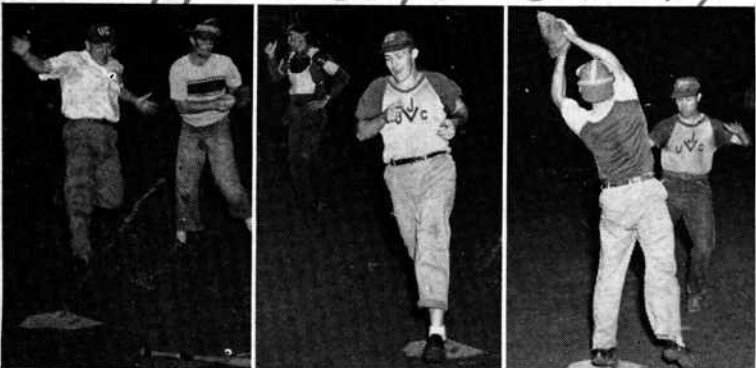

CHAMPIONS OF THE PLANT SOFTBALL TOURNAMENT are the 49ers, shown above. In the rear from left are W. S. Helms, W. C. Ridings, E. S. Henck, G. W. Wylie, J. C. Bryan, A. D. Hickey, C. C. Carter, G. J. Fielder, Ray Ellis, Miles Weaver and George McPherson. Players in the front row are John Oliver, Ralph Ford, manager; Ed Sise and Ross Jones. Youngsters are children of Oliver, Ford, Carter, Helms, Sise and Jones.

6-5577

"HE HAD HIM, BUT HE GOT AWAY"—CLYDE HOPKINS, UCJV catcher had the ball at home plate but Bldg. 9212's Arthur Wright was safe when he slid a split second after the picture was made and the spheroid got away from Hopkins. The umpire is Muckenthaylor.

6-5579 6-5576 6-5574

SOME THRILLING ACTION AT HOME PLATE IN PLANT softball games are shown above. At left DeMarcus, of the Uranium Control Junior Varsity, failed in his bid to score as Catcher Shotts, Bldg. 9212, held on to the ball after tagging the runner. In the center picture, Joe Smyrl, UCJV, was more successful as he scored after blasting a homer. Umpire Muckenthaylor is thumbing the next batter to the plate. At right another UCJV athlete, Bill Melvin, also was unable to score as Bldg. 9212 Catcher Jim Barker dragged down a high throw ahead of the runner.

6-5573

RAY ELLIS, OF THE 49ERS, SLIDES TO SCORE ON A passed ball against the Bums. Bill Cottrell, Bums pitcher, is receiving the ball too late from his catcher, Frazier, out of the picture. The 49er batter approaching the plate is Ross Jones and the umpire is Mel Dickens.

Bums Downed By 8-0 Score In Final Tilt

UCJVs Win Opening Game In Carbide Loop Championship Playoff

With Ed Sise pitching no-hit ball, the 49ers of the Carbide League came through with an 8 to 0 victory over the Bums of the same circuit, last week to capture top honors in the plant single elimination softball tournament. The only near safety gained off Sise was when a slow trickler down the first base line evaded a fielder, but the official scorer ruled that had a perfect play been made the runner would have been out.

Meanwhile, the 49ers were lustily lapping the offerings of Bill Cottrell for nine safeties. Bob Ridings led the assault with two singles and a double out of five trips to the plate.

UCJVs Win Second Half
In the other half of a twin bill played September 15, when the 49ers won their crown, the Uranium Control Junior Varsity had to battle to the last half of the last inning to eke out a victory over Bldg. 9212 and clinch the second half race in the Carbide League. The score was 9 to 8 and the victors had to overcome an early lead to prevail.

For the winners DeMarcus and Ormes each got a pair of safeties in three chances and Joe Smyrl socked a big blow with a homer in the fourth with two mates aboard. Wright hit two for three for the losers.

Rain Interrupts Series

It was hoped to have the play-off between the UCJVs, second half winners in the Carbide loop, and the 49ers, victors in the first half of the season, completed last week. However, Thursday afternoon's rain made a quagmire out of Pinewood Park, and with equipment issued for wading not available, the series is continued until this week.

The UCJV outfit, smarting over losing out in the first half by a whisker, turned on the 49ers last Wednesday night in the first game of the series and pounded out a 16 to 3 triumph. Ed Sise, who two nights previously had hurled his no-hitter, was no puzzle to the Juniors, who reached him for 10 safeties. DeMarcus got three and Brooks two of these hits in five chances each. Ridings, of the 49ers, led both teams with the willow, blasting out two doubles and a homer in the losing cause.

May Play Tuesday, Thursday

It is planned to play the second of the three games series on Tuesday night of this week and the third, if necessary, on Thursday night, at Pinewood.

Line scores of the tournament and series games follow:

FINALS, PLANT TOURNAMENT				
Team	W	L	R	H
49ers	110	204	0	8 9 2
Bums	000	000	0	0 0 2

Sise and Jones. Cottrell and Frazier.

SECOND HALF FINAL, CARBIDE LEAGUE				
Team	W	L	R	H
Bldg. 9212	302	120	0	8 8 4
UCJV	031	400	1	9 10 3

Barker and Shotts. Hooper and Hopkins.

FIRST PLAYOFF GAME, CARBIDE LEAGUE				
Team	W	L	R	H
49ers	300	000	0	3 5 3
UCJV	008	206	x	16 10 3

Sise, Carter, Helms and Jones. Hopper and Hopkins.

SECURITY MAN NAMED

William E. Leahy, president of Columbus University, Washington, D. C., has been appointed as a member of the Atomic Energy Commission Personnel Security Review Board, it is reported by the United Press.

Meeting Called Friday To Organize Y-12 Volleyball League For Short Season

With the basketball season still several weeks away, the Y-12 Recreation Office is planning to open the indoor season for plant athletes with the game of volleyball. Tentative plans call for organizing a plant league of six teams to play a schedule lasting six weeks with possible participation in an Oak Ridge city league of one of the plant teams or an all-star aggregation.

The Recreation Office points out that experience is not essential to play volleyball, which has proven a popular sport among the not-so-young men of the entire country. Instruction for newcomers to the game will be provided for both individuals and teams and the game itself and rules will be thoroughly explained. Only six players are required for each team.

Individual Y-12ers and groups interested in forming teams are urged to communicate with the Recreation Office, North Portal, telephone 7753, as soon as possible. A meeting for managers or captains of teams is scheduled to be held at 3 o'clock Friday afternoon, September 26, in the Recreation Office when it is hoped organizational plans will be completed for the proposed league.

Activators Blank Foe To Gain Lead

By taking a whitewash victory of four points from the Peons, the Activators of the D League of plant bowlers edged out in front in the circuit with a seven and one listing. In other matches last week the Vectors and Toppers broke even, the Grocers took the Old Men for three and the Split Kids won a similar victory from the Isotopes.

North, of the Split Kids, bagged a 190 scratch game, boosted to 262 with handicap, for top honors. Hill, Vectors, had the best scratch series of 536 but Ross, Activators, posted a 642 handicap series. The Toppers had the best team scratch scores with a 769 game and 2165 series. The Split Kids' handicap game of 1022 and the Activators' handicap series of 2392 were best of the night.

The big five of the loop in averages through last week were Hill, Vectors, 180; Pletz, Peons, 179; Stewart, Peons, 158; Livingston, Toppers, 155; and Ward, Grocers, 152.

League standing follows:

Team	W	L
Activators	7	1
Vectors	6	2
Toppers	5	3
Grocers	4	4
Split Kids	4	4
Peons	4	4
Old Men	1	7
Isotopes	1	7

Two Whitwash Wins Posted In E League

The E League of plant kegglers finally swung into action last week on the Jefferson alleys with the Vitro Peglers and the Hobslurps each turning in whitewash wins of four points each over the No Pins and Stinkers, respectively. The Pin Wobblers took the Ezy Aces for three points in the other engagement of the night.

Two more teams are expected to join the league roster within the next few days to complete the eight club circuit.

High scratch game of the night was a 189 by Graham, of the Hobslurps. Brothers, of the Pin Wobblers, had a 497 scratch series for tops. The Hobslurps led in team scoring with an 808 game and 2317 series.

League standing follows:

Team	W	L
Vitro Peglers	4	0
Hobslurps	4	0
Pin Wobblers	3	1
Ezy Aces	1	3
Stinkers	0	4
No Pins	0	4

Woodpeckers Whip Elks In Playoff Tilt

In one of the best softball games of the season at Middletown Park, the Y-12 Woodpeckers of the Oak Ridge Class B Recreation League turned in a 2 to 1 win in 13 innings over the Elks in a long delayed playoff game for the first half of the season championship. Both Ed Sise, hurling for the Woodpeckers, and D. Lay, of the Elks, hurled airtight ball all the way. The Y-12ers won in the top of the final inning, after 11 scoreless rounds.

Bill Hamill opened that session by drawing a walk, the only one issued by Lay. Bill Stanton then hit a long fly that was fumbled by the left fielder and Hamill scooted to third from where he tallied on an outfield fly by Braden.

The First Baptists, who also got into the playoff act to settle the three-way tie for the opening half of the season honors, were scheduled to meet the Y-12ers on Monday night of this week. If the Woodpeckers can survive this tilt, they will play the Elks again at 7:30 o'clock Wednesday night at Middletown in the first of a three-game series for the season's championship. The Elks won the second half without much of a struggle.

Line score of the Y-12 and Elks game follows:

Team	W	L	R	H	E
Y-12	100	000	000	1—2	3 2
Elks	100	000	000	0—1	4 3

Ray Galford Leads Y-12 Pin Pounders To Victory

Ray Galford again led the Y-12 men's varsity bowling team to victory on Monday night, September 15, when the Y-12ers took the Elks for three points in an Oak Ridge City League engagement. Galford posted games of 191, 206 (high for the team for the night) and 168 for a 565 series. Close behind with 550 was Roy Roberts who coupled games of 171, 177 and 202 for the tally. Then came Len Hart 181, 181, 172—534; Joe Pryson 188, 156, 181—525; and Jack Spears 181, 144, 166—491.

The Y-12 team copped the first game 912—821, dropped the second 916—864, but took the third 889—847 with total scores being 2665 for the victors and 2594 for the Elks. The Y-12 team had a record of seven points won and one lost for the season after their second appearance on the alleys.

Keglerettes Of Y-12 Win Three Points In Loop

After rolling two strong games, the Y-12 varsity keglerettes faded in their last contest against the Patterson Insurance Co. lassies but still managed to take three points in their Oak Ridge City League engagement last Thursday night. The Y-12 line score was 785, 776, 651—2212; to 676, 624, 754—2054 for the losers. The result left the Y-12ers tied with five other teams for third place behind Ricker Heating Co. and EAT.

Mavis Koons topped the Y-12 feminine bowlers with 180, 151, 134—465; and was closely followed by Mary Ballard 167, 174, 123—464; Juanita Kirwan 146, 172, 139—457; Betty Whitehorn 133, 156, 129—418; and Ruby O'Kain 159, 123, 126—408.

Sept. 27, Miss. State, Memphis.
Oct. 4, Duke, Durham.
Oct. 11, Chattanooga, Knoxville.
Oct. 18, Alabama, Knoxville.
Oct. 25, Wofford, Knoxville.
Nov. 1, North Carolina, Knoxville.
Nov. 8, L.S.U., Baton Rouge.
Nov. 15, Florida, Knoxville.
Nov. 22, Kentucky, Knoxville.
Nov. 29, Vanderbilt, Nashville.
All home games will begin at 2 p. m. The North Carolina game on November 1 is the homecoming game of the season.

Bumpers Barge Up To B League Lead

The Bumpers barged to the top of the B League standings last week by blanking the Bldg. 9211 bowlers while the previously high riding Rippers were taking a similar licking at the hands of the All Stars. Another whitewash win was turned in by the Bums over the Swingsters. The Wolves topped the Has Beens and the Tigers stung the Wasps, each by three points, and the Rebels and Cubs split even in other loop matches.

The Has Beens, despite their loss, had high team scoring honors for the night and season with a 909 scratch game, boosted to 1051 with handicap; a 2588 scratch and 3029 handicap series. Roy Roberts, of the Has Beens, had a 672 handicap series for tops while Len Hart, of the Rippers, posted a 596 scratch series. Paul Petretzky, of the All Stars, turned in a 237 scratch game for the best score yet recorded in a plant league engagement, and boosted it to 273 with handicap.

At the end of the third week of alley activities the Big Five in averages are Hart, Rippers, 181; C. Roberts, Wolves, 180; Cobble, Bumpers, 178; Potter, Bumpers, 177; Pryson, Wolves, 174.

League standing follows:

Team	W	L
Bumpers	8	4
Rippers	7	5
Rebels	7	5
Wolves	7	5
Tigers	7	5
Bums	7	5
All Stars	6	6
Bldg. 9211	6	6
Wasps	5	7
Has Beens	5	7
Swingsters	4	8
Cubs	3	9

Civil Engineers Of Y-12 Asked To Thursday Meeting

Civil Engineers of Y-12 have been urged to attend a meeting of the Oak Ridge Subsection of the American Society of Civil Engineers at 8 o'clock tomorrow night, Thursday, September 25. The meeting will be held in the West Lounge of Ridge Recreation Hall.

Henry Dougherty, of the Port-

'FULL HOUSE' SCORING POSTED BY PIN TEAM

One of those oddities that pops up every once in a while in sports fell out of the scoring cards for the Vitro Peglers, one of the new teams in the E League of plant bowlers. It was a "full house" collection of tallies with three players on the team turning in identical scores and two others also matching figures. What further made the marks interesting was that none of the bowlers had similar single game scores—only the totals matched. The reports showed Kriulea, Satupper and Ray with 394 each and Jeffers and Roselly 345 each.

Rusty Five, Hooks Unbeaten In C Loop

The Rusty Five and the Hooks raced out in front of the pack in the C League of plant kegglers last week, each blanking their foes with the losers being the Hornets and Angstroms, respectively. The UCJV kegglers also won four points from the Eutectics and were tied for second place with the Guards, who buried the Moles for three points.

The Rusty Five, individually and as a team, took all scoring honors for the night, all of the tallies being high for the season. The team scores across the board were 844, 1027, 2343 and 1912. Clyde Bowles rolled a 225 scratch game, boosted to 254 with handicap, and also posted a 518 scratch series. Bill Hays came through with a rollicking 668 handicap series.

Bowles and Harold Ratjen, both of the Rusty Five, are one-two in high averages for the season so far with 166 and 152 respectively. Then come J. Bridges, Guards, 152; E. Greely, Hooks, 151; and E. Scott, Guards, 150.

League standing follows:

Team	W	L
Hooks	8	0
Rusty Five	8	0
Guards	4	4
UCJV	4	4
Hornets	3	5
Eutectics	3	5
Augstroms	1	7
Moles	1	7

Registration Is Set Monday For UT Graduate Courses

Registration for the fall quarter of the University of Tennessee Graduate School classes in Oak Ridge will be held from 5 p. m. to 9 p. m. Friday, September 26, at the Oak Ridge Institute of Nuclear Studies Training Building. The building is located on Administration Road directly behind the Atomic Energy Commission Administration Building. Classes will start Monday, September 29, in the same building.

Courses to be offered include three in chemistry, one in chemical engineering, six in mathematics, one in metallurgy, four in physics and one in zoology.

land Cement Association, Memphis, will be the guest speaker and discuss the use of concrete in modern construction.

Many nuts hold automobiles together—one tears it apart.

Award Selections Indicate Picknicking

Continued from Page 1

cents. In ordering the Dynel hose, it must be borne in mind that the desired size must be stated. They will come in assorted solid colors.

Members of the Safety Award Selection Committee, representing a cross section of the plant, by divisions, follow:

Maintenance—Nelson Tibbatts, Mary Gilliam and A. K. Johnson.

Chemical—R. S. Phillips (substituting for W. S. Herron), J. W. Bright and Elizabeth Patrick.

Manufacturing Offices—W. C. Davis, Mildred Spoon (substituting for B. M. Fitzgerald), and D. E. Ferguson.

Engineering—Carl Roddy and Edna Fine.

Industrial Relations—J. E. Temple, Ada Hopkins and C. N. Nicely.

Research Divisions—L. H. Barker, coordinator for all; Analytical Laboratory, Margaret Marler; Materials Chemistry, K. O. Johnson; Electromagnetic Research, Margaret Jenkins; Isotope Research and Production, Edith Zarzecki; ANP, Tom Crabtree; Biology, Mary Gauden; Reactor Experimental Engineering, Dorothy Smith; Research Directors, Joyce McGhee.

Group absentee percentage was 1.9 per cent, .4 per cent lower than the preceding week.

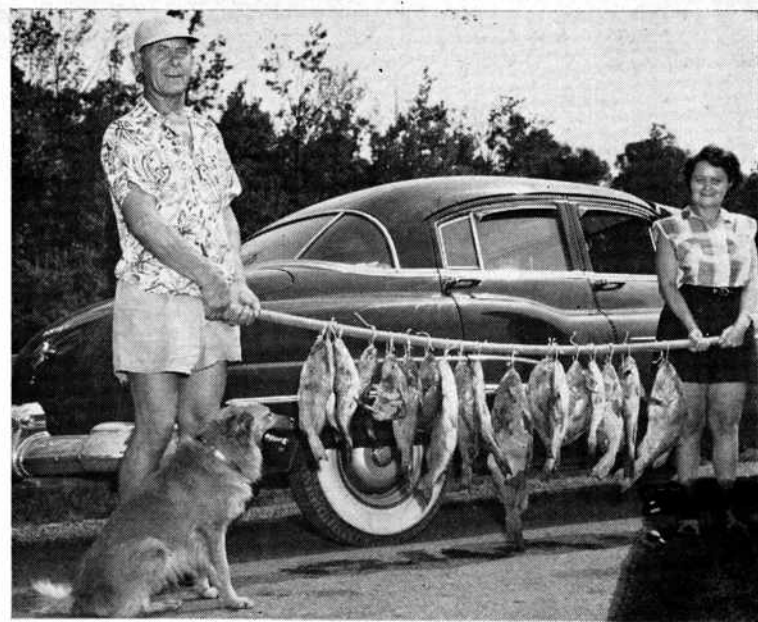

The plant average for the week ending September 14 was 2.8 per cent, .5 per cent higher than the preceding week.

Controllers On Top In W Bowling Loop

The Controllers took all three games from the Kemps in W League bowling activities last week to forge out in front in the loop standings with an undefeated record. In other engagements the Gutter Cats blanked their feline sisters, the Alley Cats, the Strikettes trimmed the Mix Ups for two and the Curvettes crunched the Cracker Jax for two.

The Controllers hogged all team scoring honors with a 706 scratch game, 931 handicap game, 2060 scratch series and 2730 handicap series. Newcomers got into the individual scoring lead with Ann Weissinger, of the Gutter Cats, posting a 218 handicap game, 448 scratch series and 616 handicap series. A 178 scratch game by Maggie Bloomer, of the Cracker Jax, was tops for the night.

At the end of the second week of bowling Betty Whitehorn, Controllers, had the best average of 146. The other top four were Ann

ARTHUR OGDEN, BUILDINGS AND GROUNDS, IS ONE of Y-12's most enthusiastic anglers, both in fresh and salt water. Recently he and a party of Oak Ridge friends ventured forth in the Gulf of Mexico from St. Petersburg, Fla., and the group came back several hours later with around 75 fish, weighing a total of more than 200 pounds. Ogden brought home some of the finest of the catch and many Oak Ridge folks have been enjoying real snapper and grouper dinners as a result of his generosity. In the picture are shown some of the best of the haul, the big grouper in the center weighing 27½ pounds and some others tipping the scales at 10 pounds or better. At right is Mrs. Ida C. Marlowe, a former Y-12 employee and member of the party. The photogenic pup and "lens hound" is Skipper, Ogden's pet pooch.

ANOTHER FINE BATCH OF DEEP SEA FISH CAUGHT BY Y-12ers, this time at Orange Beach, Ala., near Mobile, is shown above. From left are H. Dyer, Bob Martin, Mrs. Mary Harris, "Doc" Harris and Dan Zehner. Other Y-12ers on the Labor Day party not shown in the picture were Ed Gilliams, "Doc" Shepherd, C. L. Newcomb, Glenn Atchley, C. H. Crockett and F. Queener. The entire party pulled in 460 Spanish mackerel, king mackerel and bluefish, totaling about 700 pounds.

Rides Wanted And Offered

Riders Wanted—From Harriman, straight day. P. L. Patrick, plant telephone 7185, home telephone 350-W, Harriman.

Ride Wanted Or Will Participate In Car Pool—From North Clinton, straight day. Mona Rollins, plant telephone 7436, home telephone 605-J, Clinton.

Ride Wanted—From Parma Road, Oak Ridge, to West Portal, straight day. P. T. Webb, plant telephone 7025, home telephone 5-7433, Oak Ridge.

Ride Wanted—From Wilder Place, East Knoxville, straight day. H. J. Nelson, plant telephone 7102, home telephone 2-2249, Knoxville.

Weissinger, Gutter Cats, 135; Mavis Koons, Kemps, 133; Nazy Carson, Mix Ups, 128; and Katie Williams, Alley Cats, 125.

League standing follows:

Team	W	L
Controllers	6	0
Mix Ups	4	2
Kemps	3	3
Cracker Jax	3	3
Strikettes	3	3
Gutter Cats	3	3
Curvettes	2	4
Alley Cats	0	6

Checking on its "old grads," an Eastern university found that those with the largest waistbands were making the most money.

Community Chorus Invites Y-12ers To Join Singers

Musically inclined Y-12ers, particularly the more recently employed, have been invited and urged to join and attend rehearsals of the Oak Ridge Community Chorus, one of the city's major musical groups. In past years Y-12ers have been active in both solo and choral roles in the Community Chorus. Present Chorus members now employed in the Y-12 area are Ed Darden and Sue Berger, Biology; Jeanne Rogers, Analytical Chemistry; and John Redmon, Materials Chemistry. Rehearsals are held at 7:30 o'clock every Monday night in the choral room of the Oak Ridge High School under direction of J. Clarke Rhodes, newly appointed conductor of the Community Chorus.

Toronto Star Urges Reds Be Deterred By Strength

The Toronto Star has pointed out editorially that Russia has the largest army, largest air force and most powerful submarine fleet in the world. The paper declares that the chief advantages of free people is in possession of atomic weapons and hopes that these may be sufficiently awe-inspiring to deter Soviet aggression until the free people of the world can strengthen their armaments.
